NEIGHBORHOOD WATCH NEWS

Come meet your neighbors and learn more about Neighborhood Watch

Meeting the first Tuesday of every month at 6:00pm.

In 2017, U.S. households spent \$178 billion on electricity — in real terms, 10% less than they spent in 2010. Average consumption in megawatt-hours decreased too, falling from 11.5 to 10.4. The reason? LEDs. According to the *Wall Street Journal*, **no other improvement in the efficiency of household electrical appliances has been as dramatic as the switch from incandescent bulbs to LEDs.**

“When you take an incandescent bulb out and screw in an LED, consumption goes down 80%. Imagine you could get a car that uses 80% less gasoline! The Homes in partnership with the Neighborhood Watch and Livable Neighborhoods now has a supply of Dusk to Dawn lightbulbs for use on your porch. They will cut down on the cost of electricity to 3 cents per month. While the supply lasts, there will be no charge for these bulbs. Please call the office if you need one.

URPOWER Solar Lights 8 LED Wireless Waterproof Motion Sensor Outdoor Light for Patio, Deck, Yard, Garden with Motion Activated Auto On/Off (4-Pack)

2. What can you do to make your dryer more efficient?

After being informed that the stock transfers were in order, it was moved by Effie Barber and seconded by Ray Olsen that the Corporation waive its option to purchase the shares of stock and approve transfer of same. Carried unanimously. The manager was reminded that all original signed stock certificates must be stored with the credit union if the stockholder has an outstanding loan.

Reports and Announcements:

There was no report from the Neighborhood Watch Committee.

There was no stockholder trivia drawing this month.

Old Business to be Discussed:

Manager met with several members of Public Works, the Fire Department and the BPU to review the areas to add parking. The first step is to submit plans sealed and stamped by a licensed Kansas engineer.

One of the new maintenance men had to resign due to his family's schedule.

Maintenance is about halfway through with furnace inspections. So far, two furnaces have had to be replaced.

The cost of moving sheds that sit over water lines is approximately \$500.00. Residents may be able to get a discount if they use the same company.

New Business to be Discussed:

The curb stop leaks at 731 Manorcrest and 123 Viewcrest were BPU's responsibility. The contractor billed The Homes \$1,850.00 for digging up the lines. The Homes will be making a claim with the BPU.

Comments from Directors and Attorney:

None.

Comments from Stockholders:

Anna Windham asked a question about retaining wall repairs.

Sherry McCool said she was happy to live in The Homes.

No further business to come before the board the board adjourned into executive session.

as community. Despite its deep roots in Hmong culture, this complex art was not widely known outside Asia until after the Vietnam War, when Hmong refugees arrive in the United States. The works illustrate the profound relevance of textiles as infrastructure in the Hmong culture, an art form that shifted as it adapted to fit new realities. Now visitors to Kansas City, Kansas Public Library can experience the exhibition, Cloth as Community: Hmong Textiles in America, opening November 10, 2019 at West Wyandotte Library. The exhibition features 27 textiles—flower cloths and embroidered story clothes—by those in the Hmong community. The library will host an opening reception on November 16 at 2:00 pm featuring Geraldine Craig of Kansas State University, who currently provides curatorial updates for the exhibit. Following Craig’s presentation, a documentary will be shown.

WYANDOTTE COUNTY Mayors' Prayer Breakfast Friday, Nov. 8, 2019 at 8 a.m.

You are cordially invited to hear Rev. Dr. Desmond C. Lamb, Sr. , at the 45th Annual Mayors' Prayer Breakfast.

Seating begins at 7:45 a.m.

Reardon Convention Center : 500 Minnesota Avenue, Kansas City, Kan. : Interdenominational

Desmond C. Lamb was born in 1972, in Kansas City, Kansas. As an only child, Desmond grew up with a loving family, particularly his maternal grandparents. He watched his grandparents as they toiled in the gospel field. He was trained to pray, study the scriptures, and to believe and trust in God. Before his twelfth birthday, he was already practicing his craft.

Pastor Lamb is married to Sister Claudine Lamb and is the father of three beautiful children, DeAnna, Alexandria, and Desmond C. Lamb Jr. He is also the proud grandfather of Alonzo Cooper. In addition to being a husband, father, and full time pastor, he is also a full time student. Needless to say, education and God are important values in the Lamb household and are exemplified by the head of the family.

As a resident of Wyandotte County, The young Desmond Lamb attended Hawthorne Elementary, Northwest Middle, and Wyandotte High School.

Following high school, Rev. Lamb attended Donnelly College and obtained his Associates of Arts degree. He also completed his Bachelor of Arts degree in Psychology from Park University

in 2004 and a Master of Divinity with a Counseling emphasis degree from Midwestern Baptist Theological Seminary in 2014. As of December 7, 2018 Rev. Lamb graduated with a Doctorate of Ministry with a Counseling Emphasis from Midwestern Baptist Theological Seminary.

Rev. Dr. Lamb's first Pastoral assignment came in 1993 when he was only 21 years old. He became Pastor of the Second Baptist Church in Odessa, Mo. Two years later he would become Pastor of a small Kansas City, Kansas congregation- a congregation that on more than one occasion had nearly met it's end. He became Pastor of Forest Grove, there were less than on hundred members at the church. Since then, the membership has grown to over six hundred baptized believers.

Rev. Dr. Lamb is currently serving as the President of Kansas City, Kansas Baptist Ministers Union, President of the Ministers Council of the Missionary Baptist State Convention of Kansas, Adjunct Instructor for Donnelly College teaching Psychology and Moderator of Kaw Valley Missionary Baptist District Association.

All ticket reservations must be paid in advance. Reserve your seat by sending in the form <https://www.facebook.com/events/503278076888784/> or by emailing wycmayorsprayerbreakfast@gmail.com. Payment may be made by check or cash.

6. How many stock transfers where there in October?

Remodeling Your Kitchen or Bathroom.... Call The Homes

The Homes was built in 1942. The plumbing pipes are galvanized. Even under the best conditions, galvanized plumbing corrodes over time. In areas where there is hard water, your pipes can fail more quickly. What is tricky about galvanized pipes is that while they appear fine on the outside, they could be corroding on the inside. The deposits along the interior of the pipe build up over time, restricting water flow and decreasing the water pressure in your home. This buildup can also impact water pressure in other parts of the pipe and cause leaks.

Corrosion also can occur at the joints, which can result in a leak. Unfortunately, when those leaks happen behind your walls or under your floors, you may not discover them until after your home has already sustained extensive damage.

There are several problems associated with galvanized pipes: low water pressure, uneven water distribution, water discoloration and leaks.

LOW WATER PRESSURE

The corrosion and deposits which form inside the pipes over time decrease the available space inside the pipe, which eventually lowers the water pressure in your home.

UNEVEN DISTRIBUTION OF WATER

Since corrosion often accumulates unevenly, different areas of your home may have different issues with low water pressure. If you aren't the original homeowner, what may have happened is that some of the galvanized pipes may have been replaced by the previous owner while others were left in place.

DISCOLORATION OF WATER

If you notice brown stains in your sink or bathtub, you may have iron in your water, which could be caused by galvanized pipes.

LEAKS

Over time, as galvanized plumbing eventually fails, the joints leak, which can cause extensive damage to your home. Leaks which occur behind walls or under floors, if left unnoticed, can cause severe damage. In this worst-case scenario, a homeowner might not only need to replace pipes, but also repair any resulting damage from the water leak in the foundation, drywall, flooring, ceilings, wooden support beams and sheetrock. A hidden water leak can even lead to mold damage. Adding insult to injury, leaking pipes are a magnet for termites.

IF YOU PLAN TO REMODEL YOUR KITCHEN OR BATHROOM CALL THE OFFICE. WE WILL MAKE A PLAN WITH YOU TO CHANGE OUT YOUR GALVANIZED PIPES.

8. Where should you not park when it snows?

HELPFUL HINTS ABOUT LIVING IN THE HOMES

BE KIND! IF IT SNOWS DON'T PARK IN A SPOT YOU NORMALLY WOULDN'T. IF A NEIGHBOR TAKES THE TIME TO SHOVEL OUT THE SPACE THEY NORMALLY PARK IN, THEN RESPECT THEIR HARD WOK AND DON'T PARK THERE.

DRYER VENTS. To help prevent a fire and to make your dryer efficient you should clean out the dryer vent on the outside of the house. Lint can build up and clog the hole not allowing the heat to escape through the vent.

PLUMBING: DO NOT FLUSH FLUSHABLE WIPES. The pipes in our homes are over 70 years old. They do not have the capacity to wash away any other material. Do not flush baby wipes, feminine hygiene products, diapers, paper towels, Q tips, etc. The sink and tub drains are only for water disposal. Do not force items down the drains. If maintenance finds these items consistently causing a backup in your pipes you may be charged for the repair.

PARKING: The Homes does not have assigned parking. Please be considerate of your neighbors and their parking needs. Try not to park in a spot that is normally used by your neighbor. If you have guest, have them park in the overflow lots. **NEVER PARK IN YARDS OR COMMON GROUND.**

YARDS & PORCHES: Please take the time to clean up/organize your yard and porch. The size of our porches do not allow for you to keep many items on them before they start to look cluttered and messy. If you do not have a shed an affordable alternative is to store your items in a deck or patio box. They range in cost from \$30 to \$100 and can be purchased on-line or at your local discount store. Items that should not be on your porch: appliances, boxes, buckets, mops, paint containers or any other "non outdoor" items. The office offers free paint for your porch railings.

SPEEDING. The speed limit in The Homes, Inc. is 20 mph. It only takes a few seconds for a distracted child to dart out in the road. Please be aware and safe while driving.

AUTOMOBILE REPAIR. It is against the rules to work on your vehicle in The Homes. If your vehicle needs repair, then you will have to take your vehicle out of the neighborhood or take your vehicle to a mechanic. Unless you are changing a flat tire, you should **NEVER** put your vehicle on a jack in the Homes.

KEEP FURNACE AND WATER HEATER AREAS CLEAN. Having too many clothes, boxes, or general clutter in your utility area can be a fire hazard. Please keep yourself and your neighbors safe and keep your utility areas clean. **DO NOT PILE CLOTHES OR OTHER ITEMS ON TOP OF THE WATER HEATER OR FLU AREA.**

NOISE. Please be mindful of the level of noise you create. It is our responsibility to keep the sound we make to a reasonable level, so we are not disturbing our neighbors. Sometimes, simply communicating with your neighbors and working out an understanding can resolve this and many other problems.

STICKS AND LIMBS: Place sticks/limbs in 4 foot bundles to the curbside for pickup by maintenance.
